SUMMARY

Computer Science student (7th semester) with hands-on experience in mobile app development, game design, and data-driven web applications. Proficient in the MERN Stack for building scalable full-stack solutions, alongside expertise in Flutter for mobile UI/UX. Detail-oriented, quick to adapt, and passionate about building user-focused digital products.

PROJECTS

Mentairo – Mentorship Mobile App

- Built with Flutter & Firebase for real-time data storage.
- Implemented mentor/mentee roles, paid mentorship posts, and collaboration features.
- Integrated Agora API for video calls, screen sharing, and presentations.

Luxe Grooming – Salon Web App

- Front-End: React JS, Tailwind CSS.
- Back-End: Express JS with MongoDB database.
- Implemented Appointment Booking feature and Admin dashboard for managing bookings.
